

## P535396

### AIR FILTER, SAFETY RADIALSEAL

#### Why Choose Donaldson Safety Filters?

Safety filters have two functions: to act as a backup to the primary filter and to protect the engine during primary filter servicing.

- Serve as a backup filter in case of primary filter damage or improper installation.
- Prevent contaminants from entering the clean side of the air intake system during primary filter servicing.
- Designed to plug rapidly if contamination finds its way past the primary filter, alerting operators about an issue.
- Recommend that safety filters are replaced with every third primary filter change unless there has been a failure of the primary filter.

#### Attributes

Outer Diameter	46.2 mm (1.82 inch)
Inner Diameter	31.1 mm (1.22 inch)
Length	167.3 mm (6.59 inch)
Efficiency Test Std	ISO 5011
Family	FPG
Primary Application	JOHN DEERE M123378
Type	Safety

Style	Radialseal
Brand	RadialSeal™
Media Type	Safety

---

#### Packaged Dimensions

Packaged Length	4.4 IN
Packaged Width	4.2 IN
Packaged Height	8.6IN
Packaged Weight	0.255 LB
Packaged Volume	0.092 FT3

---

#### Other Information

Country of Origin	Mexico
NMFC Code	069100-03
HTS Code	8421310090
UPC Code	742330082188

The information contained herein is general in nature and may not reflect actual information regarding the part at time of shipment. Parts may originate in more than one country – the actual country of origin and HS Code will be reflected on the Commercial Invoice(s) that accompanies the goods.
