

# BetterGrass

## A Bio-Positive Approach to Soil and Animal Health

IMPROVED PLANT HEALTH

ENHANCED PLANT GROWTH

IMPROVED ANIMAL HEALTH

INCREASED PRODUCTIVITY

REDUCES NUTRITION LOSS

HIGHER QUALITY MILK

A comprehensive solution that addresses the interconnected health of soil, plants, and animals. By focusing on optimising soil conditions and nutrient availability, BetterGrass aims to improve overall agricultural productivity and animal well-being.

**SFS**  
BIOLOGICAL SOIL & PLANT HEALTH

# Why BetterGrass?

- **Soil health:** BetterGrass focuses on healthy soil structure, nutrient cycling, and microbial activity. By correcting soil deficiencies, it creates an optimal environment for plant growth.
- **Nutrient management:** BetterGrass identifies optimal nutrient levels, including trace elements, to prevent deficiencies and excesses, enhancing health and productivity.
- **Animal health:** BetterGrass links soil health to animal well-being, improving health, growth, and reproduction by ensuring proper nutrient availability and addressing trace element deficiencies.

## BetterGrass is designed to enhance the nutritional value of grass, leading to healthier and more productive livestock.

### Essential minerals in BetterGrass prevent deficiencies that can cause reduced growth, disease susceptibility, and reproductive issues.

By using BetterGrass, farmers ensure their livestock receive necessary nutrients for optimal performance and profitability.

Humic SC is a versatile soil amendment that improves soil health, nutrient availability, and plant productivity. Its unique formulation and multiple benefits make it a valuable tool for sustainable agriculture. Some of the minerals found in our product are:

**Cobalt:** Supports appetite and B12 synthesis.

**Magnesium:** Reduces the risk of grass tetany.

**Copper:** Improves growth rates & milk production.

**Iodine:** Enhances thyroid health and prevents goiter.

**Zinc:** Boosts immune system & conception rates.

**Selenium:** Improves resilience against diseases.

# BetterGrass

- **Improved plant health:** BetterGrass creates resilient, productive soil, promoting healthier plants.
- **Enhanced plant growth:** BetterGrass addresses nutrient deficiencies and optimizes soil conditions for better plant growth.
- **Improved animal health:** BetterGrass prevents animal health issues by ensuring adequate nutrient intake and addressing trace element deficiencies.
- **Increased productivity:** BetterGrass optimizes soil and animal health, boosting agricultural productivity.
- **Reduces nutrient loss:** BetterGrass minimizes nutrient losses, reducing the need for chemical inputs.
- **Higher quality milk:** BetterGrass improves cow health, resulting in higher quality milk.
